

FOLDS BEAUTIFULLY AND SPEEDY!

FRENCH FOLDER FOR BATH TOWEL

TB-60K

TOTO FOLDER MANUFACTURING CO., LTD.

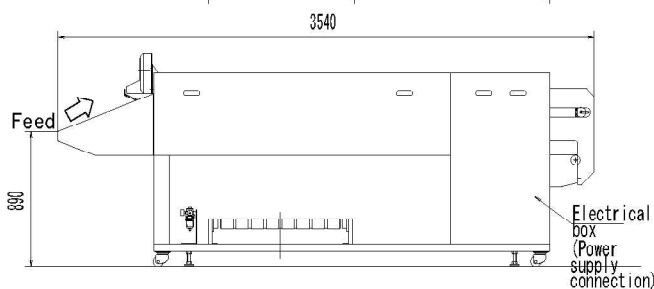

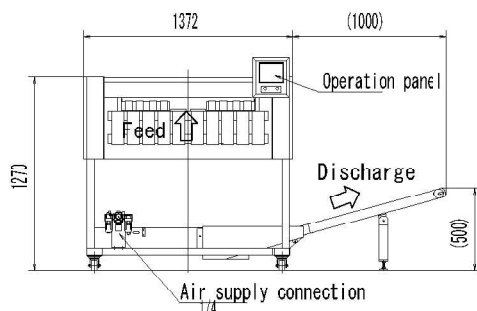

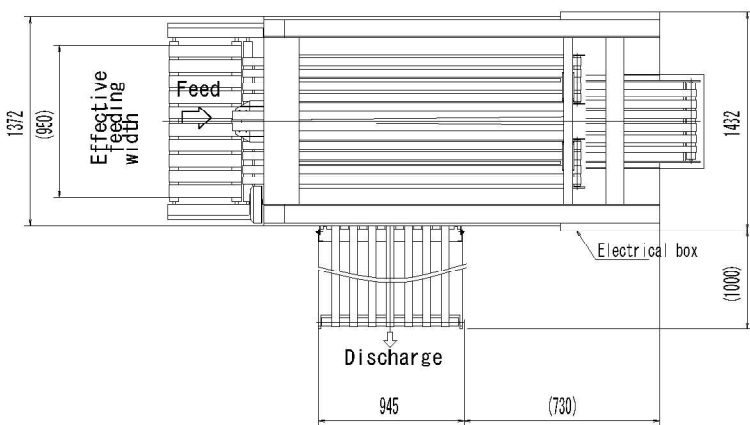

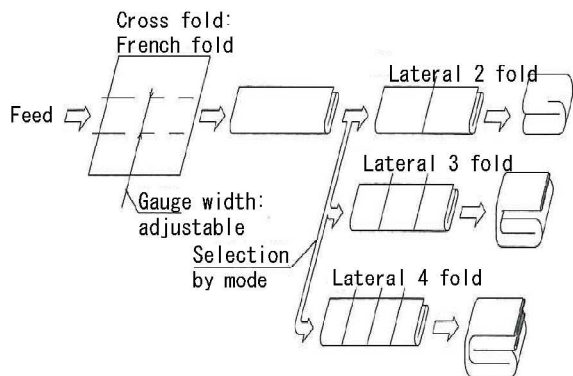

TB-60K

FEATURES

- 20 modes can be set. Each selection is easily made by LCD panel.
The most adequate gauge width and folding specifications can be set individually according to article.
By changing mode, the most adequate setting can be called easily.
- By adapting an independent feeding conveyor, feeding can be made correctly.
- Aluminum knives are used for French fold section. Folding is made sharply.
- Thick and high grade king sized bath towel(1800L) can be folded.
- Adjustment can be made more finely. Unevenness of folding became less.
- Vacuuming device for correcting the shape of towel is available as option.
- This machine is applicable to fitted sheet, too.
