

High Speed Sheet Folder

SS1A

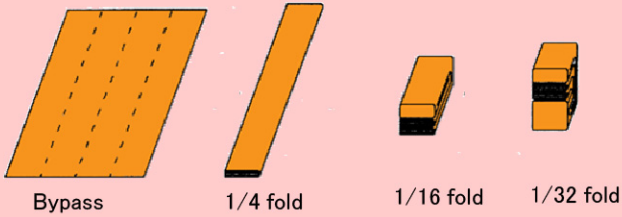

東都フォルダー工業 株式会社
TOTOFOLDER MANUFACTURING CO.,LTD.

Specifications of SS1A Folder

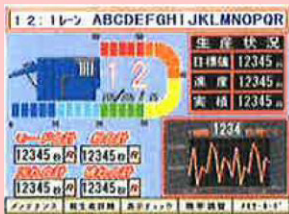

Target items

- Width (mm) 1,100~3,000 (※3,300)
- Length (mm) 1,100~3,000

Features

- ◆ SSIA is sheet folder for front side folding which can process at higher speed.
- ◆ Folding parameter adjustment is not required even if conveyor speed changes.
- ◆ Knife mechanism is adopted at all the folding sections, which brings accurate and sharp foldings. Folding of items from thin to thick are beautifully finished.
- ◆ Mode changes from/to Bypass to/from any mode and between modes can be made just by one touch on Touch Screen.

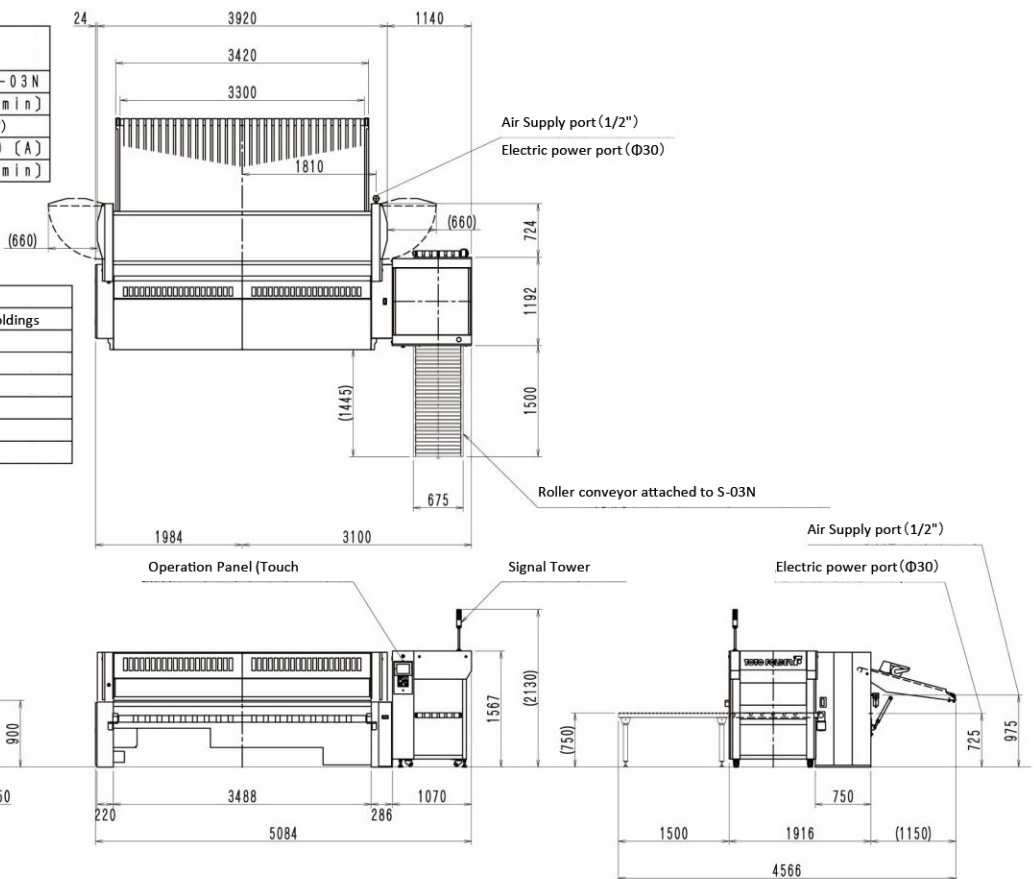

8" LCD Color Touch Screen is adopted for simpler and easier operation of Sheet Folder.

Specifications	
Name	High Speed Sheet Folder with High Position Stacker
Model	SS1A-33+S-03N
Conveyor Speed	20~60 (m/min)
Electric	AC 3Ph 200(V)
Electric Capacity	3.2 (kW) 20 (A)
Electric	0.5 (MPa) 210 (L/min)

Remarks:
This drawing shows a model with right side discharge.
Left side discharge model is also available.

Folding Patterns	Bypass		
	Folding	1/4, 1/16, 1/32 foldings	
Feeding arm (with length)	Length	1000~2800 (mm)	
	Width	1000~3300 (mm)	
Stack (finished sizes after)	Length	Max. 750 (mm)	
	Width	Max. 450 (mm)	
	Height	Max. 250 (mm)	

※For better performance, dimensions and specifications are subject to change without prior notice.
